

CPD Training Seminars

Leviat
A CRH COMPANY

Our Leviat technical and sales staff have considerable technical experience of applying seminar content in practice and in answering questions from both specifiers and contractors.

Our CPD seminars cover topics for both:

Façade Support & Restraint

Structural Connections

See the reverse of this flyer for details on current CPDs available

CPD Training Seminars

Leviat
A CRH COMPANY

Our current CPD seminar offering includes:

Façade Support & Restraint

1. Windposts for Construction: The Development of the Ancon Thermal Windpost (TWP2)
2. Support and Restraint of Masonry Cladding on Framed Buildings
3. The Correct Use of Wall Ties and Head Restraints
4. Support and Restraint of a Cast Stone Façade
5. Ancon Masonry Support Systems: Specification and Installation Guidance
6. Considered Façade Solutions for Complex Applications: The design of bespoke façade support and restraint focusing on slab edge complexity

Structural Connections

7. Solutions for Designing Structural Concrete Connections

Our CPD training can be delivered:

At your offices, accompanied by a complimentary buffet.

At our offices in Sheffield, including factory & office tour.

Live, interactive webinars delivered on Microsoft Teams at a time and date to suit you.

Drop-In Sessions

Alternatively, why not book in one of our drop-in sessions. The sessions aim to give your team the opportunity to meet with one of the leading experts in masonry support and restraint design in a more informal setting. It will be a place to ask questions, share ideas and discuss any unusual details you may have on your projects. We will also bring along product samples so that you can inspect the range, and understand the Leviat offering in much greater detail. All we request is a room/space within your office for a couple of hours, and we will bring along some sweet treats as a thank you.
