External Driver Health and Safety

1. The maximum speed on site is 5MPH.
2. Watch for pedestrians at all times.
3. Follow the one-way system where applicable – the main site yard exits.
4. Park your vehicle in the designated area, or as instructed by Leviat personnel.
5. Beware of forklift truck activity on site - in the yard and in the factory. Please abide by the exclusion zone and always gain drivers attention before passing behind one. Beware of overhead cranes in the factory.
6. PPE must be worn – Hi Viz Vests, Safety Footwear.
7. Head, hearing and eye protection must be worn in the factory.

8. All loading and unloading of vehicles will be supervised by Leviat Despatch and Goods Inwards personnel. For your safety, please follow their instructions and do not commence loading or unloading until a Leviat supervisor is present.

Access and working on the rear of the trailer is not permitted at the Leviat sites unless a platform and fall protection equipment is in place.

Unsafe working practices will not be tolerated on Leviat premises.

9. Drivers must remain either in their cab or in the designated safe area.
10. Drivers or any other personnel must not enter the loading/unloading area unless expressly given permission by Leviat personnel who will coordinate this activity.
11. You are not allowed to drive Leviat forklift trucks or drive the overhead cranes
12. Drivers entering the factory must wear the required PPE as above and use designated walkways as directed by Leviat personnel.

**IF FOR ANY REASON YOU NEED TO STOP THE LOADING PROCESS,
ATTRACT THE LOADERS ATTENTION BY RAISING AND WAVING THIS CARD.**
