

Fixing Solutions for Masonry and Concrete

Nexus[®] Brick-faced Support

Thermal Breaks for Balconies

Insulating Wall Ties for Cavity Walls

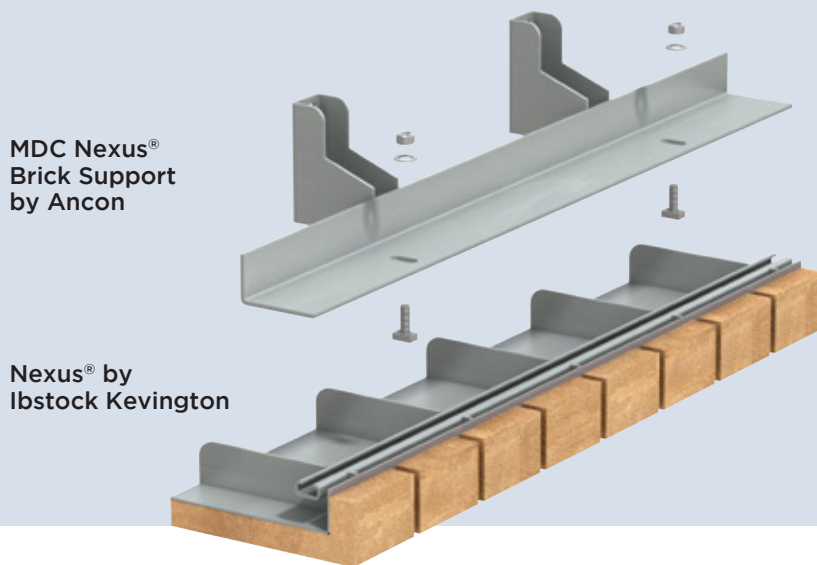

Ancon's 2017 Ecobuild Guide

Ancon has been fabricating steel in Sheffield for over 130 years. Today, we employ over 500 people at three UK manufacturing facilities and six overseas businesses in Europe, the Middle East and Australasia. Innovation is our driving force. It leads us to continually review our range against ever more challenging customer requirements and engineer new and improved products, delivering superior performance and lifetime value.

Nexus® Brick Faced Support Systems

Modular lightweight brick units which fix directly to Ancon brick support angles to create an attractive soffit, quickly and easily, with perfect alignment.

IBSTOCK KEVINGTON

Low Thermal Conductivity Wall Ties

Insulating Wall Ties

Our low thermal conductivity wall ties reduce heat loss through masonry walls, minimising insulation depth and wall footprint.

Staifix Stainless Steel Wire Ties

Staifix HRT4

Staifix RT2

Insulated Balcony Connectors

Thermally efficient, high strength connectors minimise heat loss at balcony locations while maintaining structural integrity. Stainless steel (17W/mK) is 3x more thermally efficient than galvanised steel (50W/mK).

KSN Anchor Reinforcement Continuity

The CARES-approved KSN Anchor reinforcement continuity system simplifies core to slab connections in multi-storey concrete frames. Unlike traditional rebend continuity boxes, the KSN system does not require the heavy manual work of bar straightening on site improving site safety, and anchor spacing and bar length are unrestricted providing total design flexibility.

System Components

- KSN Anchors
- KSN Tapered Timber Carrier
- KSN Bartec Continuation Bar

CE Marking

Ancon products that fall under the EU Construction Products Regulation are CE Marked. Declarations of Performance are available at www.ancon.co.uk/ce.

Building Information Modelling

An online portfolio of BIM Objects is freely available to download from www.ancon.co.uk/BIM in five file formats including Revit and IFC.

Royal Recognition

In 2015, Ancon became a double Queen's Award for Enterprise winner, holding business accolades in Innovation and International Trade.

Wall Tie Selector App

Choosing the most appropriate cavity wall tie for your application is simple with the Ancon Wall Tie Product Selector App, available at the Apple App Store, Google Play or Amazon Appstore.

Technical Support

The Ancon technical team offers free advice on product selection, specification and installation to avoid site delays or remedial action.

Installation Videos

Animated product installation videos are available to provide guidance on the use of Ancon's structural fixing solutions.
